

Code, Create and Connect

Final Project

Name: Simon Getachew

Title of Project:

Basic tools

Type of Project:

Web

1. Project Overview

- Give a brief summary of what your web project aims to achieve.
 - My project aims to achieve making people's life easier.

2. Project Description:

- Explain its main features, functionality, and the problem it solves.
 - My project can help make the user's life more convenient and time and man-power saving.

3. Describe the technologies used?

- This can include HTML, CSS or any other tool you employ.
 - I've used HTML and CSS but mostly JavaScript.

4. How many pages will your website have? And what are they?

- My website has 4 webpages, which are **Temperature Converter**, **Password Generator**, **To-Do List** and **Pomodoro Timer**.

5. Can you describe the steps you will take to make your project?

- Step 1: Styling the HTML file roughly.
- Step 2: Coding the JavaScript file.
- Step 3: Finally fully styling the webpages.
